

Announcement Date: August 9, 2011

EMC has made available, and Infotek has tested AX 6.5 Patch 1 for ApplicationXtender's Desktop Manager. The details of the Release Notes are shown below. Infotek has tested on XP SP3 and 32-bit Windows 7 workstations. Infotek has only sanity tested this release for core functionality and has not performed full regression testing on every function of AX. Customers are encouraged to follow a testing and deployment plan appropriate for their environment.

The release is available thru EMC's PowerLink site, as well as thru Infotek. Contact us if you have any questions.

ApplicationXtender Desktop 6.50 Patch 1

This patch applies to ApplicationXtender Desktop 6.50.124.
